WE SENT THIS “ATTORNEY’S CORNER” TO YOU IN JANUARY. I’M PUTTING IT OUT THERE AGAIN FOR FEBRUARY BECAUSE YOU NEED TO GET IT AND DO IT FOR 2020!

ATTORNEY’S CORNER

by Larry Culley

THE HOLIDAYS ARE OVER AND IT’S TIME TO BUCKLE DOWN AND FLY RIGHT IN 2020!

ARE YOU READY FOR 2020? HERE’S HOW!

ARE ALL YOUR PERMITS AND LICENSES (INCLUDING YOUR OWN AND YOUR EMPLOYEE’S DRIVER’S LINCENSES VALID)?

ARE YOU PAYING YOUR EMPLOYEES UNDER THE NEW MINIMUM WAGE LAW AS FOLLOWS: Workers in New York City, employed by large business (at least 11 employees) - \$15.00 Workers in New York City employed by small business (10 employees or fewer) - \$13.50 Workers in Long Island and Westchester Counties - \$12.00 Workers in all other areas of the state - \$11.10?

ARE YOU PERFORMING INSPECTIONS WITH A TWO-PIECE WINDOW TINT METER IN ACCORDANCE WITH THE NEW INSPECTION REGULATIONS REGARDING TINTED GLASS?

ARE YOU DISPLAYING SIGNS MANDATED BY D.M.V. AND OTHER GOVERNMENT AGENCIES INCLUDING THE POSTING OF LICENSED INSPECTORS AT INSPECTION STATIONS?

ARE YOU COMPLETING AND FILING THE IMMIGRATION FORMS FOR ALL NEW EMPLOYEES, “I-9”? ARE YOU COMPLETING AND FILING THE N.Y.S. “NEWLY HIRED EMPLOYEES” FORM?

ARE YOU CHECKING YOUR VAPOR RECOVERY EQUIPMENT & COMPLYING WITH THE NEEDED 5 YEAR TEST (THIS IS BEING PHASED OUT BUT IS STILL ENFORCEABLE AT THIS TIME)?

ARE YOU FILING YOUR YEAR END TAXES?

ARE YOU PREPARED TO MAINTAIN DAILY, ACCURATE, GASOLINE INVENTORY RECORDS AS REQUIRED BY LAW (DIP BOOKS ARE AVAILABLE FROM YOUR ASSOCIATION)?

ARE YOU MAINTAINING THE PROPER COLOR CODE ON YOUR GASOLINE FILL LINES?

ARE YOU DISPLAYING THE OIL SIGN: “WE ACCEPT WASTE OIL FOR RECYCLING”? ARE YOU HANDLING USED OIL FILTERS PROPERLY?

ARE YOU DISPLAYING THE SIGN: “WE MUST ACCEPT VEHICLE BATTERIES FOR RECYCLING”?

ARE YOU MAINTAINING THE FILE OF MATERIAL SAFETY DATA SHEETS (MSDS)?

ARE YOU AND YOUR EMPLOYEES AWARE OF THE POSSIBLE HEALTH HAZARDS ASSOCIATED WITH THE VARIOUS CHEMICALS AND THE PRECAUTIONS THAT SHOULD BE TAKEN?

HAVE YOU FILED YOUR "COMMUNITY RIGHT TO KNOW" FORM ON STORED SUBSTANCES IN N.Y.C.? THE DEADLINE IS MARCH 1ST.

ARE YOU MAINTAINING A SAFE WORKING ENVIRONMENT? ARE ALL YOUR FIRE EXTINGUISHERS AND SUPPRESSION SYSTEMS PROPERLY CHARGED AND WORKING? **SAFETY IS FREE! USE IT GENEROUSLY.**

ARE YOU USING APPROVED REPAIR ORDER FORMS? ARE YOU PROVIDING ALL INFORMATION REQUIRED ON THE ORDER FORM BY D.M.V.?

ARE YOU A MEMBER OF YOUR ASSOCIATION SPONSORED WORKER'S COMPENSATION GROUP? THOSE WHO ARE RECEIVED DIVIDENDS FOR OVER 25 YEARS. ARE YOU ALSO PROVIDING DISABILITY INSURANCE FOR YOUR EMPLOYEES AS REQUIRED BY N.Y.S.?

ARE YOU PROVIDING QUALITY REPAIRS? ARE YOU USING QUALITY PARTS? DON'T CREATE FUTURE PROBLEMS WITH A FALSE ECONOMY?

ARE YOU AND YOUR TECHNICIANS MAKING TIME FOR EDUCATION (WORK SMARTER NOT HARDER)?

ARE YOU MAINTAINING A CLEAN, ATTRACTIVE LOCATION? LOOK AROUND, YOU MAY BE SURPRISED. ARE YOU MAINTAINING A SENSIBLE PROFIT MARGIN? YOU CANNOT SURVIVE WITHOUT IT. ARE YOU PREPARED TO SIT DOWN WITH YOUR ACCOUNTANT AND REVIEW YOUR OPERATIONS?

ARE YOU PERFORMING INSPECTIONS PROPERLY? DO IT RIGHT OR DON'T DO IT AT ALL! ARE YOU GIVING WRITTEN INSPECTION APPOINTMENTS? WRITTEN APPOINTMENTS MUST BE ON YOUR LETTERHEAD.

DO YOU CARD FOR CIGARETTES AND ALCOHOLIC BEVERAGES? DO YOU HAVE SOFTWARE AT YOUR P.O.S. PREVENTING SALES OF THESE PRODUCTS WITHOUT AN I.D. BEING SUBMITTED?

IF YOU HAVE DUAL ISLANDS WITH SELF SERVE - FULL SERVE, IS THE "HANDICAP" SIGN POSTED?

ARE YOUR CLERKS TRAINED AND CERTIFIED UNDER THE TOBACCO LAW AND ALCOHOL LAW?

DOES THE OWNER, MANAGER AND CLERKS HAVE AN "A", "B" OR "C" CERTIFICATION UNDER THE UNDERGROUND STORAGE TANK REGULATIONS?

ARE YOU READY? ONLY YOU KNOW THE ANSWER. IF YOU'RE UNSURE, CALL YOUR AREA REPRESENTATIVE.

Lottery Stings

A private firm working for the Gaming Commission has begun carrying out simulated lottery stings using undercover minors at stores statewide.

If an underage sale occurs management is notified on the spot, but the establishment will not be penalized. If the sale is refused, management is not notified.

Lottery officials say this is not an enforcement initiative, but a non-punitive academic exercise to provide a benchmark for future efforts to prevent underage gambling.

The private contractor, True View of Hicksville, Long Island, will report to the gaming commission in late 2018. If you have any questions or information to provide contact the association office at 518-452-4367.

Bill to Ban All Flavored Tobacco

In Albany, some state politicians are pushing hard to **ban all flavored tobacco products including menthol cigarettes**, and they're gaining momentum. We need your help to stop it.

The bill is S.6809 sponsored by Senator Hoylman (D-Manhattan) / A.8808 sponsored by Assemblywoman Bichotte (D-Brooklyn). It is being considered tomorrow (Wed 1/22) by the Assembly Health Committee, and has been referred to the Senate Health Committee.

For those of you in New York City, flavored OTP has been banned for some time under local law, but menthol cigarettes can still be sold legally. By working together, our industry convinced the City Council leadership to table a bill in 2019 that would have been menthol cigarettes. Now we need to block the state legislation.

For those of you outside the city, your retail members would stand to lose menthol cigarettes, flavored cigars, flavored smokeless tobacco, and all other flavored OTP if this bill were to pass. It would devastate sales and customer counts.

I invite you to ask your members to use NYACS' "VoterVoice" system to automatically email their Assembly and Senate members expressing their opposition to the tobacco flavor ban. It only takes 2 minutes, but it could make the difference between the bill passing or failing. Some retailers are having each of their employees send one.

All they need to do is go this link, enter their contact information, and hit send:

<https://www.votervoicenet.com/campaigns/70426/respond>

Follow-up phone calls to their Assembly and/or Senate members would be helpful.

Thanks for engaging on this critical issue!

Air Tower Bill – Please Call in Your Support

The attached memo is for a bill that generated much interest in the legislature last year. The attached memo outlines the association's support of the bill. Please call your legislators and ask them to support the bill as well. Also attached are listings of senate and assembly members

phone and email address. Assembly members by address can be found on <https://www.nyassembly.gov/mem/search/>. Senate member addresses by address can be found at <https://www.nysenate.gov/registration/nojs/form/start/find-my-senator>. Please call if you require any assistance

A.5819 / S.4495

MEMORANDUM IN SUPPORT

ASSEMBLYMAN ABBATE -SENATOR MARTINEZ

The New York State Association of Service Stations and Repairs Shops, Inc., its affiliates and members support the subject bill, which provides the State of New York with exclusive jurisdiction over the requirement that motor fuel dealers provide an air compressor to inflate tires for customers.

Agriculture and Markets Law § 192(b)6 and General Business Law § 396-x(2) both require any dealer selling motor fuel at retail to provide a functioning air compressor to inflate tires of customers. This bill provides that the State of New York would have exclusive jurisdiction over the operation or equipment required pursuant to these sections. This bill would restrict municipalities from promulgating local laws regulating tire inflation equipment. The bill specifically provides, however, that a municipality is not restricted from enforcing the provisions of the State laws mandating that motor fuel dealers provide tire inflation equipment.

A motor fuel dealer is required to provide an on premises, motor-driven air compressor to inflate automobile tires for customers during business hours. Air inflation machines have different specifications including power supply, types of pressure gauges built into the machines, hose length and coin and credit applications. The air machines are authorized under Article 16 of the Agriculture and Markets Law, which provides for coordination and administration of weights and measures (by the Department of Agriculture and Markets (the "Department"). Motor fuel dealers should be governed by a uniform regulatory scheme with respect to air compressors. Municipalities should not be able to enact local laws which mandate different specifications or operations for tire inflation machines. For example, a municipality required that the tire inflation equipment be made available on a 24-hour basis rather than when the motor fuel retailer was open for business.

The Department should have exclusive regulatory authority over tire inflation machines, as it does with motor fuel pumps, to ensure uniformity and a level playing field across the retail motor fuel industry. This legislation makes it clear that the State preempts the regulatory field. With over 1,500 municipalities in New York, which could place different requirements on the operation or equipment, motor fuel dealers would have conflicting requirements if local laws were implemented. This bill places responsibility for tire inflation machine equipment and operation with the State of New York.

For the above reasons, the New York State Association of Service Stations and Repairs Shops, Inc., its affiliates and members strongly support this legislation and urge its enactment.

Respectfully submitted:
New York State Association of
Service Station and Repair Shops, Inc.
6 Walker Way
Albany, NY 12205

Legislation To Monitor 2020

An Assembly bill, A4782 from 2018/19 legislative session increases penalties for inspection stations including a mandate for suspension of the inspection license. It was not co-sponsored last year in the Senate but you saw the an article in the Times Union in September highlighting the bill. The memo in support references the unauthorized inspection of a limo by an inspection station as the impetus for the bill. It is however much broader in application.

The bill was generated due to a multi-death accident where twenty people were killed and the modification to the passenger size of the vehicle and a poor inspection and failure to repair the inspection failure all were causes of the accident.

The bill places much of the future blame for this type of accident on New York State inspection stations.

A 2019 law, Section 2 of this bill makes it mandatory for the DMV Commissioner to suspend a license to operate an official inspection station for any of the listed causes in the statute including failure to conduct inspections in conformance with rules and regulations or improper issuance of certificates of inspection. Under current law the Commissioner has discretion as to whether to suspend a certificate of inspection, it is not mandatory except in the case of a third or subsequent violation of rules and regulations committed within an eighteen month period. This provision was added by an article vii budget bill S. 1509B as chapter 59 of the laws of 2019. Inspection station must also send a mandatory form to the State with information on the vehicle that has been modified to increase its passenger capacity by even one person.

If read correctly, Bill 4792 from 2019 provisions require a mandatory suspension for any violation of the rules and regulations is a significant because a potentially minor violation would result in a suspension. It is also inconsistent with the provision under current law requiring suspension after a third or subsequent violation.

We expect A4792 to return in the 2020/21 legislative session. We will need to monitor this bill's activities carefully.

If you have any questions, please call the association office.

What Are The Labor Laws For Workers Between The Age Of 14 And 18

When school is not in session, and during vacations (school must close for the entire calendar week): Minors under 18 may not work more than 8 hours a day, 6 days a week. Minors 14 and 15 may not work more than 40 hours a

week. 16 and 17 year-olds may not work more than 48 hours a week.

When you turn 16, you will need to go from your 14-15 year old working papers (blue) and get your 16-17 year old working papers (green). ... At the end of a job, the employer must give your working papers back to you. You can use them on your next job (if you are still the right age for the certificate).

State Prohibited Occupations Under 18 Years Of Age
No one under the age of 18 may be employed in or assist in:

- any occupation at construction work, including wrecking, demolition, roofing, or excavating operations and the painting or exterior cleaning of a building structure from an elevated surface.
- any occupation involved in the operation of circular saws, bandsaws, and guillotine shears.
- any occupation in or about a slaughtering and meat-packing establishment, or rendering plant.
- any occupation involved in the operation of power-driven woodworking, metalforming, metal-punching, metal-shearing, bakery and paper products machines.
- any occupation involved in the operation of power-driven hoisting apparatus.
- any occupation involved in the manufacture of brick, tile, and kindred products.
- any occupation involving exposure to radioactive substances or ionizing radiation, or exposure to silica or other harmful dust.
- logging occupations and occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill.
- any occupation in or in connection with a mine or quarry.
- as a helper on a motor vehicle.
- the care or operation of a freight or passenger elevator, except that minors over 16 may operate automatic, push-button control elevators.
- work in manufacturing, packing, or storing of explosives, or in the use or delivery of explosives.
- operating or using any emery, tripoli, rouge, corundum, stone, silicon carbide, or any abrasive, or emery polishing or buffing wheel, where articles of the baser metals or iridium are manufactured. New York State Department of Labor 16
 - adjusting belts to machinery or cleaning, oiling, or wiping machinery.
 - packing paints, dry colors, or red or white leads.
 - preparing any composition in which dangerous or poisonous acids are used.
 - operating steam boilers subject to Section 204 of the Labor Law.
 - in penal or correctional institutions, if such employment relates to the custody or care of prisoners or inmates.

(These prohibitions do not apply to minors younger than 18 who are apprentices individually registered in apprenticeship programs duly registered with the Commissioner of Labor or to student-learners enrolled in recognized cooperative vocational training programs, or to trainees in approved on-the-job training programs. They do not apply to minors 16 to 18 years old who have completed training as a student learner or trainee in an on-the-job

training program, or has completed a training program given by a public school or a non-profit institution, which includes safety instruction approved by the Commissioner of Labor. There are regulations governing the approval of these safety instructions.)

Virginia Governor Proposes Gas, Cigarette Tax Hikes

Virginia Governor Ralph Northam (D) proposed raising the motor fuels tax 12cts - 4cts/year over three years - to a total 34cts/gal. The plan, presented as part of Northam's budget, also would tie the gas tax to inflation.

"In 2018, miles driven in Virginia increased, while we collected less from the gas tax. This trend is only going to escalate," Northam said in a recent speech to state lawmakers. The governor also proposed to double the state cigarette tax to 60cts/pack from the current 30cts/pack. "Raising this tax at this level will still put us at a lower state rate than every neighbor besides North Carolina and will allow us to take important steps to control the cost of health care," Northam said.

"Here in Virginia, we pride ourselves on being a low-tax state," Northam said. "But it makes no sense to cling to the bottom of the rankings for a product that costs us so much."

Massachusetts Health Board Approves New Restrictions on the Sale of Tobacco Products

The Massachusetts Public Health Council approved new rules restricting the sale of nicotine vapor, and flavored vapor and tobacco products.

The move comes a month after the state legislature approved legislation to ban the sale of flavored tobacco and vapor products — including menthol cigarettes — across the state. Gov. Charles Baker signed it into law on Nov. 27.

The new law, An Act Modernizing Tobacco Control, includes a number of restrictions on the sale of tobacco products, including limiting the sale of flavored nicotine vaping products to licensed smoking bars where they may only be smoked on-site.

Baker's signature also gave the Massachusetts Department of Public Health (DPH) new authority to regulate the sale of nicotine vaping products, to ensure the public is informed about the potential dangers of vaping and to implement other provisions of the law in order to protect the public health.

With the Dec. 11 action by the state health panel, the new regulations effective immediately are:

- Retail stores licensed to sell tobacco products, such as convenience stores, gas stations, and other retail outlets, are restricted to the sale of non-flavored nicotine products with a nicotine content of 35 milligrams per milliliter or less.
- The sale of non-flavored nicotine vaping products (with a nicotine content more than 35 milligrams per

milliliter) is restricted to licensed, adult-only retail tobacco stores and smoking bars.

- The sale and consumption of all flavored nicotine vaping products may only occur within licensed smoking bars.
- Beginning June 1, 2020, the sale of flavored combustible cigarettes and other tobacco products, including menthol cigarettes and flavored chewing tobacco, will be restricted to licensed smoking bars where they may be sold only for on-site consumption.
- A 75-percent excise tax on the wholesale price of nicotine vaping products, in addition to the state's 6.75 percent sales tax, will also go into effect on June 1.

Needed Update of Massachusetts Right to Repair Law Headed to Ballot

The Massachusetts Right to Repair Coalition announced that it has turned in 102,000 signatures to ensure an initiative petition to enact a much-needed update to the Commonwealth's Right to Repair law reaches the 2020 ballot.

The Coalition--a group of Massachusetts independent repair shops, auto parts stores, trade associations, consumers, and drivers--said that a lack of progress on an update to the law in the Legislature led them to pursue an initiative petition so that Massachusetts car owners will continue to have access to the repair and diagnostic mechanical information produced by the vehicle they own.

By 2020, advancements in vehicle technology and increasing restrictions by automakers will result in more than 90% of new cars being equipped to transmit real-time diagnostic and repair information wirelessly to vehicle manufacturers, threatening the rights that Massachusetts car consumers enjoy today to choose to get their cars fixed at trusted independent repair shops or do the work themselves.

"We need to update the Right to Repair law before wireless technologies remove the car owner's right to get their vehicle repaired at our local, independent shop because the automaker would rather steer them towards one of their more expensive dealers," said Alan Saks of Dorchester Tire Service. "This is a common-sense reform and we'd love to see the Legislature move forward and fix it so that we don't have to go to the ballot to protect consumers' rights to shop around for car repairs."

Massachusetts Right to Repair Coalition Director Tommy Hickey said, "Our independent shops are increasingly facing the prospect of having limited or no access to diagnostic and repair information now that automakers are restricting access through rapidly expanding wireless technologies in vehicles not covered under current law." The ballot initiative would give car owners access only to the diagnostic and repair data generated by their car, and they could opt to provide access to any dealer, repair shop, or automaker that they choose during the lifetime of their car.

The Coalition delivered its signatures to Secretary of State William Galvin's office. The initiative petition filed is

entitled An Initiative Law to Enhance, Update and Protect the 2013 Motor Vehicle Right to Repair Law.

Further information may be found at massrighttorepair.org.

State diverts tire tax money. Time to abolish it?

by Jim Kenyon

Wednesday, February 12th 2014

Whether you call it a tax, a fee or a surcharge, New York State collects \$2.50 for the purchase of every tire sold in the state. It's the price you pay for the Waste Tire Management Fee which was imposed in 2003 to fund the clean up large tire dumps. But a CNY Central investigation has found that the majority of the fee now pays for salaries and state expenses that may have little to do with the disposal of used tires.

11 years ago, New York State had a huge problem with number of large tire dumps. The worst was at the Fortino property in Oswego County where more than 10 million used tires posed a toxic fire hazard and endangered health and the environment. Through the Waste Tire Management Fee, the state spent \$115 million to clean up the Fortino property and the large tire dumps so that mostly small tire dumps remain.

The tire tax was supposed to expire in 2010, but has been extended twice. According to the State Department of Environmental Conservation, the tire fee continues to raise up to \$26 million annually, but only a fraction of the money goes to the actual cleanup of tire dumps.

The DEC provided CNY Central with a rough breakdown of how the money is spent:

- \$6 million goes to the state's general fund where it can be used for any purpose
- \$14 million pays the salaries of employees in the DEC's Hazardous Waste Division
- \$6 million is for waste tire abatement projects

So once a tax, always a tax? CNY Central's Jim Kenyon asked Governor Andrew Cuomo during a recent visit to Solvay, if it was time to do away with the tire tax. Cuomo replied, "We will be reviewing that tax through this legislative session. Obviously there are differing opinions on the tax, but it's one of the taxes on the table to look at."

On January 29, State Senator John DeFrancisco who chairs the Senate Finance Committee asked DEC Commissioner Joseph Martens for an accounting of the money collected through the Waste Tire Management Fee. DeFrancisco wanted to know how many DEC positions are funded through the tax and whether the money is "really being used for waste tire cleanup or for other employees."

At the budget hearing, Martens could not immediately provide the information but replied: "The short answer is both...it is cleaning up the waste sites and it funds employees making sure those sites are cleaned up."

The day after Martens appeared before the Finance Committee, Senator DeFrancisco told Kenyon, "I get the feeling we're going to get some ammunition to try to

convince the Assembly as well as the Governor to get rid of that line item and get rid of that tax."

The Senate Finance Committee provided CNY Central with the DEC's response to Senator DeFrancisco's inquiry. The Waste Tire Management Fee has been renamed the "Waste Management and Cleanup Fund. That fund pays the salaries of 141.3 DEC employees at an annual cost of \$17.4 million.

The DEC further responded that over the life of the fund, the state has spent \$115 million on waste tire abatement. Over the past two years, 12 sites have been cleaned up with contracts remaining for one large site on Long Island along with 20 smaller dumps across the state. Currently the tire tax is due to expire at the end of 2016. DeFrancisco says he would like to abolish it sooner.

All-Electric Vehicles Have Lowest Annual Fuel Costs: EIA

The estimated annual fuel costs for model year (MY) 2019 all-electric light-duty vehicles are the lowest of all of the different vehicle technologies, a report from the U.S. Energy Information Administration (EIA) said on Monday.

All-electric light-duty vehicles for MY 2019 have annual fuel costs ranging from a low of \$500/yr. to a high of \$900/yr., the lowest of five types of designated light-duty vehicles, which included plug-in hybrid electric vehicles, hybrid electric vehicles, gasoline vehicles and diesel vehicles.

The annual fuel costs for plug-in hybrid electric vehicles, which can fuel with gasoline and electricity, are the next lowest -- with an estimated range of \$600/yr. to \$1,950/yr. -- and are heavily influenced by the electric range of the vehicle, the report said.

Hybrid electric vehicles -- with a range of \$650/yr. to \$2,500/yr. -- are fueled only with gasoline, generally use their technology for maximizing fuel economy. However, because some models use their hybrid systems to boost performance rather than to increase fuel economy, not all hybrid vehicles have low fuel costs.

Gasoline vehicles have an estimated range of \$1,000/yr. to \$4,100/yr., the widest ranging of the categories. Diesel vehicles were given an estimated range of \$1,150/yr. to \$2,250/yr.

All vehicle fuel costs were rounded to the nearest \$50, and annual fuel cost estimates are based on combined city/highway fuel economy, 15,000 annual miles and the following fuel prices -- \$2.55/gal regular gasoline, \$3/gal premium gasoline, \$2.85/gal diesel and \$0.13 electricity per kilowatt hour, EIA said.

Gasoline-Powered Vehicle Sales Likely Peaked in 2016, Think Tank Says

Sales of conventional gasoline-powered vehicles in the U.S. likely peaked in 2016 at a level of \$17.3 million,

according to a memo released late last week by Washington-based think-tank Third Way.

The report from Senior Resident Fellow Ellen Hughes-Cromwick said, "Sales of these vehicles likely will never be as high as they were three years ago."

According to the memo, surging sales of electric vehicles (EVs) has contributed to falling sales of conventional gas-powered vehicles. Hughes-Cromwick said that approximately 433,000 EVs have been sold since 2010 and sales have grown fourfold since 2015.

Third Way expects this number will rise in the future due to greater consumer choice, falling costs, charging convenience and growing concerns by the public over climate change.

With more offerings and expanding infrastructure, EV sales could grow at double-digit rates for an extended period during the 2020s," Hughes-Cromwick said.

Expanding sales will have to be met with greater access to charging infrastructure and policy incentives should be created to assist automakers in adapting to the technology, according to Third Way.

IBM Announces Cheaper, Heavy Metal-Free Battery Design

IBM on Wednesday said it has discovered a way to make batteries that outperform existing lithium-ion batteries while using material extracted from seawater in place of cobalt and other heavy metals.

In a blog post about the discovery, the American company said batteries using the technology can be charged quickly, are less likely to catch fire than lithium batteries and could be cheaper to produce.

The company said it has joined with Mercedes-Benz Research and Development North America, Central Glass, one of the top battery electrolyte suppliers in the world, and Sidus, a battery manufacturer, "to create a new next-generation battery development ecosystem."

"While plans for the larger development of this battery are still in the exploratory phase, our hope is that this budding ecosystem will help to bring these batteries into reality," the announcement said.

In the announcement, IBM said the new technology uses "three new and different proprietary materials, which have never before been recorded as being combined in a battery."

IBM noted that current battery technology relies on cobalt and heavy metals whose mining pose both environmental and humanitarian risks.

It said the materials used in the new process could be extracted from seawater. It said the design uses "a cobalt and nickel-free cathode material, as well as a safe liquid electrolyte with a high flash point."

The design allows for fast charging, with tests showing the battery in some configurations can reach an 80% charge in about five minutes. "Combined with the relatively low

cost of sourcing the materials, the goal of a fast-charging, low-cost electric vehicle could become a reality," the announcement said.

The company also touted the design's higher power and energy densities and strong energy efficiency. The battery has a power density of more than 10,000 W/L (watts per liter) and an energy density of more than 800 Wh/L (watt hours per liter).

It said the battery can be configured for use in flying vehicles and electric aircraft, as well as for use in smart grid applications and "new energy infrastructures where longevity and stability is key."

Ford to Make All-Electric, Hybrid F-150s, Autonomous Vehicles in Michigan

Ford Motor Co. said it will invest more than \$1.45 billion and add 3,000 new jobs at two Michigan plants as part of its expansion into electric and autonomous vehicles and to make gasoline- and diesel-powered pickup trucks and sport utility vehicles.

Ford said it will add 300 jobs and spend about \$700 million at its Dearborn, Mich., truck plant for the production of the newly designed F-150 hybrid and fully electric F-150. Ford will also create a new operation in Dearborn where battery cells will be assembled into a battery pack for the F-150 hybrid and all-electric F-150, it said.

Ford said it will debut its newly designed F-150 and F-150 hybrid in 2020, and the company said its fully electric F-150 will be "coming soon after," without providing a specific time.

Ford's F-150s and its F-Series pickup trucks have been the best-selling vehicles in the U.S. for the past 42 years.

Last month, Ford unveiled its first all-electric vehicle, a Mustang SUV called Mach-E, which has a range of about 300 miles between charges.

The next couple of years should be an eventful time for electric pickup trucks. General Motors Co. said in November that its battery-powered Rivian R1T truck will arrive in fall 2021, and Tesla Inc. could begin to produce its fully electric Cybertruck in late 2021.

In addition, Ford said it will invest \$750 million and add 2,700 new direct jobs in the next three years at its manufacturing facility in Wayne, Mich., to build the new Ford Bronco and Ranger models, and a new modification center to support autonomous vehicles and other vehicles.

Ford said the autonomous vehicle, Bronco and Ranger modification center in Wayne will complete the company's first autonomous vehicles starting in 2021, including installing the vehicles' unique self-driving technology. The company also said it will modify Broncos and Rangers for customers at the same location.

The Bronco will be revealed in spring 2020, the company said, bringing back its famed model, which is now an all-new, off-road SUV, the company said.

Federal Active Legislation

Among active legislation on a federal level, Congress is trying to determine the answers to several questions that effects small business. Fortunately, or unfortunately they are so tied up with the impeachment hearings there is very little legislation being considered on in Washington.

Some examples:

1. Should there be legislation to increase payroll tax for family leave? New York already has a Family Leave program which is paid for with disability insurance.
2. Should Congress amend the tax law to provide relief for estate taxes? The estate tax is a federal tax on the right to transfer property and assets at death. This tax is imposed on the transfer of a deceased persons property and assets to his or her beneficiary(s), meaning the beneficiary(s) are responsible to pay the estate tax.
3. Should employers be required to provide the personal contact information of employees to union organizers? There is a bill in both houses of Congress that would require employers to provide the personal contact information of all employees to the National Labor Relations Board before a union election.
4. Should employers be prohibited from asking prospective employees about wage or salary history? A bill in both houses would prohibit employers from asking prospective employees any questions regarding wage, salary, or benefit history.

These bills have been active during the last two years of the session but since 2016 Congress has been practice and they are subject to that deadline."

Cumberland Farms' Suit Against Rhode Island's Truck Toll Program Moves Closer to Federal Court

The United States Court of Appeals for the First Circuit upheld a lawsuit challenging Rhode Island's truck-only toll program, ruling the suit can proceed in federal court.

The lawsuit was brought by Westborough-based Cumberland Farms, the American Trucking Associations (ATA), M&M Transport Services Inc. and New England Motor Freight in the summer of 2018. In the suit filed in Providence, R.I., the plaintiffs argue that Rhode Island's new toll system violates the commerce clause of the U.S. Constitution by discriminating against out-of-state trucking companies.

The toll plan launched in June 2018.

However, in March 2019, a federal judge dismissed the lawsuit, ruling that the court lacks jurisdiction and the case should be brought in the state court system, as Convenience Store News previously reported.

On Dec. 5, the First Circuit ruled today that despite the Rhode Island's assertion, the lawsuit was not barred by the federal Tax Injunction Act, which generally prohibits federal courts from hearing challenges to state taxes, according to ATA.

"We have long believed that Rhode Island's RhodeWorks truck-only toll scheme was a violation of the Constitution and an attempt to use our industry as a piggy bank," said ATA President and CEO Chris Spear. "Today's decision by the First Circuit paves the way for us to make that argument in federal court and we look forward to the chance to vindicate our case on the merits."

The court, which is located in Boston, held that the RhodeWorks tolls are not a "tax," and was not immune from challenge in federal court," the Arlington, Va.-based association said.

"Today's ruling is just another step in getting these extortionary tolls torn down and we would urge the governor and her allies to do the right thing and put an end to this unfair and unconstitutional toll scheme so we can get serious about working together on how to equitably and effectively rebuild our infrastructure," said Rhode Island Trucking Association President Chris Maxwell. "With this ruling in hand, we are confident we will prevail in this suit once it is decided on the merits."

Connecticut lawmakers have been considering a similar truck-only toll; however, the recent appeals court's ruling could out a stop to the proposal, the Hartford Courant reported.

Vapor Tax

Effective December 1, 2019, a new 20% supplemental sales tax will apply to retail sales of vapor products in New York. The tax is collected by a vapor products dealer. Beginning on December 1, 2019, any business that intends to sell vapor products must be registered as a vapor products dealer before making sales of vapor products.

Bay Drains

Several questions have been asked of the association office on bay drains. Attached is a reminder that bay drains guidelines come from EPA. However, if any government agency make you to change or update your bay drains call the association office

<https://www.epa.gov/uic/motor-vehicle-waste-disposal-wells>

DMV Record Retrieval

DMV record retrieval is available to association members and affiliates at a cost of \$12 per record. Additionally, you may order DMV certified paper abstracts of driver's license, vehicle registration, and vehicle title records for an additional fee of \$2 per abstract. Please call 607-723-1849

Selling Your Inspection License

If you are thinking of retiring or selling your business and have a New York State DMV Inspection license, your license may be valuable depending on the county where your shop is located. If you have questions on the sale and/or transfer of an inspection license call the association office at 518-452-4367.

Attention Inspection Stations

The Association has received a flurry of requests for legal representation for violations of the DMV commissioner regulations known as "clean scanning." that is when a vehicle other than the one to be inspected is substituted for the OBD-II part of the test. We have no defense for these violations. DMV has the ability to trace the OBD-II inspection to the vehicle used for the inspection.

If you cannot pass a vehicle for any reason, get help. That help could come from DMV. This violation almost always results in revocation.

All Petroleum Bulk Storage Facilities

YOU WERE REQUIRED TO DESIGNATE A CLASS A AND/OR B AUTHORIZED OPERATOR TO NYS DEC NO LATER THAN OCTOBER 11, 2016

THIS WAS MORE THAN TWO YEARS AGO

If you have not done this you are now subject to a \$500 penalty from NYS DEC. This may now be unavoidable

If you have not reported this information to NYS DEC as of yet do so immediately. Communicate this information to DEC at operatortraining@dec.ny.gov

If you have questions, need more information or want to file a complaint, please visit
www.labor.ny.gov/minimumwage or call: **1-888-469-7365**.

Credits and Allowances that may reduce your pay below the minimum wage rates shown above:

- **Tips** – Your employer may use a limited amount of your tips to reduce your wages. This is called a tip credit. Your employer may take a tip credit only if your tips plus wages add up to at least the minimum wage. They must still pay you at least the tipped wage rates shown above.
- **Meals and lodging** – Your employer may claim a limited amount of your wages for meals and lodging that they provide to you, as long as they do not charge you anything else. The rates and requirements are set forth in wage orders and summaries, which are available online.

Extra Pay you may be owed in addition to the minimum wage rates shown above:

- **Overtime** – You must be paid 1½ times your regular rate of pay (no less than amounts shown above) for weekly hours over 40 (or 44 for residential employees).
Exceptions: Overtime is not required for salaried professionals, or for executives and administrative staff whose weekly salary is more than 75 times the minimum wage rate.
- **Call-in pay** – If you go to work as scheduled and your employer sends you home early, you may be entitled to extra hours of pay at the minimum wage rate for that day.
- **Spread of hours** – If your workday lasts longer than ten hours, you may be entitled to extra daily pay. The daily rate is equal to one hour of pay at the minimum wage rate.
- **Uniform maintenance** – If you clean your own uniform, you may be entitled to additional weekly pay. The weekly rates are available online.

Waste tire management fee

Update

The waste tire management and recycling fee has been extended through December 31, 2022.

The Environmental Conservation Law imposes a \$2.50 per tire waste tire and recycling fee on sales of most new tires sold at retail within New York State. The Tax Department is responsible for administering the collection of the fee.

Who must collect the fee

If you are a tire retailer, including a car dealer or an auto repair shop, you must collect the \$2.50 per tire fee on most new tires sold. You must remit \$2.25 for each tire sold when you file the waste tire management fee return. You can keep 25 cents for each tire sold to cover your administrative costs.

Sales subject to the fee

The fee applies to new tires you sell in New York State for use on nearly all self-propelled or towed vehicles that qualify to be registered under the Vehicle and Traffic Law including:

- cars
- trucks
- motor homes
- buses
- trailers
- motorcycles
- all-terrain vehicles
- limited-use vehicles
 - low-speed vehicles having a maximum performance speed of more than 20 but not more than 25 miles per hour; and
 - limited-use motorcycles having a maximum performance speed of 40 miles per hour

The fee also applies to new tires you sell in New York State with a new or used vehicle, including spare tires, whether they are full-size or for emergency use only.

The waste tire management fee does **not** apply to sales of recapped or used tires. It also does **not** apply to mail-order, phone-order, or internet sales.

Exempt sales

The following sales of new tires are **not** subject to the waste tire management fee:

- Sales to New York State, its agencies, instrumentalities and political subdivisions;
- Sales to the United States, its agencies, and instrumentalities;

- Sales to limited dividend housing companies exempt under section 93(1) of the Private Housing Finance Law;
- Sales to nonprofit property and casualty insurance companies exempt under section 6707 of the Insurance Law;
- Sales of tires for resale; and
- Sales of tires for exempt vehicles including:
 - electric wheel chairs
 - go-carts
 - golf carts
 - go-peds (skateboards and scooters that have a motor and a handle for a standing rider)
 - mini-bikes
 - motor-assisted bicycles
 - vehicles that run only on rails or tracks.

Who must pay the fee on tires sold for use on leased or rented vehicles

The lessor of a vehicle is responsible for paying the fee when he or she purchases a vehicle to lease or rent to customers.

The purchaser of the tires is responsible for paying the fee when he or she purchases new replacement tires for a leased or rented vehicle. Therefore, if a lessee purchases new replacement tires for a leased vehicle, he or she is responsible for paying the fee.

When to file and pay

You must file a waste tire management fee return with the Tax Department and pay the required fees on a quarterly basis. Even if you make no sales of tires subject to the waste tire management fee during the quarter, you must still file a waste tire management fee return for the quarter. The return and payment are due within 30 days after the end of each quarter.

When you cease selling new tires, you must file a final waste tire management fee return and pay any fees due within 30 days of ceasing that operation, regardless of when the quarter ends.

How to file and pay

Log in to your [Online Services](#) account to file your return and make payment online using the Waste Tire Web File. Once logged in, select *Other taxes*, from the *Services* menu on the left-hand side of the page, and then select *Waste Tire Web File* to start your return. If you file sales tax returns, you probably already have an [Online Services](#) account. If not, it is quick and easy to [create an](#) account.

If you cannot file and pay online, file Form [MT-170, Waste Tire Management Fee Return](#).

Reporting periods and due dates

Due dates

Quarterly period	Due date for filing return
December 1 through February 28 (29)	March 31
March 1 through May 31	June 30
June 1 through August 31	September 30
September 1 through November 30	December 31

**NEW YORK STATE
ASSOCIATION OF SERVICE STATIONS AND REPAIR SHOPS**

**Web Training for:
DMV INSPECTOR TRAINING
(Instructions on how to sign in and take the training)**

1. Enter our nysassrs.com website either by cell phone or computer.
2. Find the training tab on the top of the screen (if in full screen view). If smaller there is a menu tab on the left of the screen. Click that and you will find the training tab there. It will bring you to an intro page to our training.
3. Inside the blue column SITE MAP you will see Inspector Training Material.

(Make sure you have an updated form of adobe flash player, if not you can access the abobe website from this page.)

4. Click on whichever inspector training you would like to download. We have:
 - a) Light/medium duty, and
 - b) Heavy duty inspection training available.
 - c) Motorcycle,

Note it may take a few minutes to download depending on your internet speed.

5. When download is complete you may access our full audio presentation.
6. You may also choose to access the DMV's version of the training which we provide the link for if you like. There is no audio or PowerPoint but DMV's presentation may differ a little to give you variety in training.
7. Besides training, our presentation takes you step by step to register for the testing for inspector certification.
8. If you have any questions contact the association office at 518 452-4367.

REGULATIONS ON USED CAR BONDS

Surety Bond

To get a surety bond, you must contact a surety insurance company. Make sure that the business name and mailing address on the bond exactly match the business name and mailing address on your DMV facility license, Make sure that you write your Facility Number on the bond.

Bond amount required from a dealer

The bond amount depends on the number of vehicles that the dealer sold in the previous calendar year, or if the dealer is licensed as a franchised new dealer. Refer to the chart below.

Number of vehicles sold in Previous calendar year	Bond amount
50 or fewer	\$20,000
More than 50	\$100,000
Franchise dealers selling cars, SUVs, light trucks, etc. Dealers selling only trailers motorcycles. Vehicles over 10,000 pounds, ATV's,boats and snowmobiles are exempt from the bond requirements.	\$50,000

Need help getting a bond?

Call the association office.

Heartland

NYSASSRS now offering “PAY AS YOU GO” billing

We are pleased to announce our newest Member Benefit Partner, Heartland Payroll Solutions. Through this partnership, any safety group participant can take advantage of their integrated billing solution with the NYSASSRS Safety Group.

Benefits of Pay As You Go:

- You pay premiums each pay period based on current payroll information.
- Improved cash flow management by sending accurate workers' comp premium to the carrier based on actual payroll
- Premium payments are automatically deducted by the NYS Insurance Fund
- Reduces the risk of year-end audit payments
- Better option than “direct bill policies” or “self-reported policies” that require periodic, larger premium payments

About Heartland:

- NYSASSRS members get an exclusive discount on payroll processing with Heartland
- Pay As You Go billing is FREE
- Processes payroll for more than 36,000 customers
- Cloud-based, feature-rich solution
- Three-year price lock on processing fees
- Dedicated Single Point Of Contact
