TRACTOR

Pomp's offers a full range of tires for the farm - including bias and radial rear and front tires for the tractor - implement, harvest, sprayer equipment, wagons, irrigators, planters, free-rolling or self-powered, directional or non-directional...you name the application, Pomp's carries a tire that brings out the best in your equipment. In addition to the great brands we carry, Pomp's service technicians deliver outstanding service in the field.

FLOTATION

Call Pomp's Tire Service first when you're in need of replacement flotation tires or are considering making conversions to high flotation tires. We'll help you determine what you need and estimate the cost. We can supply the tires and wheels you will need. The combination of our custom built wheels and a vast variety of flotation tires, makes for an easy and affordable decision.

IMPLEMENT

Pomp's knows when your equipment isn't moving, you're not getting the job done. Downtime in any job is wasted time. Our Team of "Tire Professionals" work hard to reduce that downtime. Our trucks are properly equipped and our staff of technicians expertly trained to provide off or on-site service. No matter what type of equipment you use - Pomp's has the right 'stuff' to meet your needs.
