

SUPPORT LOCAL FLEET PRICING PROGRAM

Hello, my name is Steve Scherer and I'm the owner of Baxter Tires Plus located on the west side of HWY 371, right next to 371 Diner. I've been a Nisswa resident since 2011 and worked in the Automotive and Tire industry for the last 30+ years. While a lot has changed over that time, the importance of great customer service and having a mechanic that you can trust has not. This is particularly true for businesses that depend on their company vehicles to be up and running to successfully operate. That's why I created our Support Local Fleet Pricing Program. Since we opened shop in 2019, we've gained and maintained the business and trust of many fleet accounts. It's 100% free to join, there's no membership fee and we won't fill your voicemails or inboxes with endless offers or promotions. What we will do is provide your company with affordable, dependable and reliable automotive service work that we will stand behind every time. When you bring your business to Baxter Tires Plus, you're bringing it somewhere local, somewhere that understands what quality customer service means to the Lakes Area.

It's been my goal to open a high quality, affordable, trustworthy Tire & Auto shop in the Lakes Area since I moved here and I'd love the chance to earn your business.

If you have any questions about Support Local Fleet or would like to get registered, we encourage you to give us a call, shoot us an email, or better yet, stop by the shop to see what we can do to help your fleet business.
